"An artistic and peculiar genius in manifesting the life and times of the emotional lower self. There is no truer story."

**Buz Haddon**

Co-creator of *The Living Corpse*

## ANXIETY CAN'T BE IGNORED

It's not something an individual can just change about themselves. It's a constant fight, and a badge of honor to survive.

I've always wanted to tell the story of my battle with my personal Glass Ceiling. Since I was diagnosed with anxiety, it's been an endless fight—and this is my war cry. I wanted to give it a voice and show no shame. So many others suffer from mental illness and there's a stigma attached to it. This book showcases this disorder and its true effects.
